# R & G Corsets, \$1

From now until October the corset question is most important, because

comfort and coolness are indispensable requirements. R & G Corsets for summer possess many features that make them ideal for warm-weather wear. Styles are so harmoniously adapted to the figure that there is no binding to increase perspiration, and all R & G's are strictly non-rustable.

Worthy of special mention is the new R. & G. with inserted elastic bands at the hips, greatly increasing coolness and comfort. Shown in four num-

**Attack Assessments for Spring** Road Boulevard.

CLAIM RATES INACCURATE

Senate District Committee Hears Objections to Valuations of Property.

Attacks on assessments of property in the District were the feature of a hearing before the Senate District committee this morning on the bill for the extension and widening of Spring road to provide a boulevard from the Soldiers' Home to Rock Creek Park.

"We believe the assessment books are not only unreliable as to the real value of property, but absolutely useless as a guide in estimating what a jury will allow for ground to be taken for public improvements," said E. S. Kenny, George H. Russell and William R. Loney of the Park View Citizens' Association in the course of a protest against the bill in uestion laid before the committee.

"Hundreds of cases can be cited where he assessment is far too low; others where it is, perhaps, too high; and we know of no condemnation case where the jury has been influenced in the slightest degree by the assessed value.

#### True Value Not Determined.

"We believe the Commissioners have ot in this case carefully considered the true value of the ground to be taken; that they have not obtained any expert opinions on the subject, but have been guided solely by the assessments, which may be and probably are out of date or incorrect. "The result is that they have valued ome of the land to be taken at less than s cents per foot for which a jury will obably allow 15 cents; some at less han 4 cents which will no doubt be valled at 20 cents, and some at 15 cents for which 50 cents per foot probably will have "At 16th street and Spring road they have valued a piece of ground on one side 83 cents per foot, while on the opposite

side for ground equally valuable their valuation is 15 cents. We believe that practically every foot land to be condemned under this bill assessed and valued too low, and that cost will far exceed the Commissionestimate and the ability of many of

In protest to the bill there appeared William H. Saunders, president of the Columbia Heights Citizens' Association; James S. Easby-Smith, its vice president, and W. B. Todd, its secretary.

#### Three Appeared to Protest.
